

Why Students Can't See Grades?

If your students are not able to see their grade for a grade item, it might be due to one of the following settings:

- (1) The section (where the grade item is in) is hidden.
You need to uncheck the 'eye' icon to **show the section**:

- (2) The grade item is hidden.
You need to click "**Show**" so the grade item is visible to students:

- (3) You might have prevented students from accessing to the grade item until a specified date and time. You will need to reset the restriction timeframe for student access in the grade item's editing page:
