Pathway Advising Notes: This is a Jumpstart Pathway. Courses taken at Helena College will transfer to Montana Technological University and will satisfy most of the coursework required in the first year of the Electrical Engineering degree.

- There are some courses that are offered on the MT Tech campus only which can be taken after transfer.
- M273 Multivariable Calculus and M274 Differential can be taken at MT Tech.
- Some courses may be offered in the Summer.

Course Advising Notes: M171: Mt Tech required course

Students not prepared for M 171 their first semester should consider taking M 151 the summer prior

CHMY141: Mt Tech required course

WRIT121: WRIT 121 meets core writing requirements for both HC and Mt Tech.

COMX111: Course meets core requirements at both Mt Tech and HC. Course is offered every fall, spring, and summer semester

M172: Mt Tech required course

SPNS101: H&FA course

Recommended course meet core requirements at both Mt Tech and HC and 4-credit course is needed to meet credit requirement for AS degree. If a 3-credit course is taken, student may not have enough credits earned for degree.

ECNS201 or ECNS202: Mt Tech required course

S&PS/H course

Either course will meet Mt. Tech requirement. Courses offered on rotation every fall, spring, and summer semester.

NASX105: D & CHAI

Course offered every fall, spring, and summer semester.

PSYX100: S&PS/H course

Recommended course meets core electives at both Mt Tech and HC.

Course offered every fall, spring, and summer semester.

2 of LIT110, LIT211, PHL110, SPNS102: H&FA course

Recommended courses meet core requirements at both Mt Tech and HC. Any H&FA course offered at HC will meet HC core requirements.

CSCI100: Programming courses required at Mt Tech. This course will help prepare students for future courses

SOCI101: Course may not be needed if student took M151 prior to taking M171 in semester 1. If M151 was taken, students will have earned

enough credits for AS degree
without this course.
